

PARTNERSHIP / 2026-27

FINDING THE LINE.

Yinka Oyeбанjo-Odofin

An engineer's mind.

An athlete's resolve.

A purpose bigger than the finish.

NIGERIA. SKELETON. ROAD TO 2030.

MORE THAN RACE DAY.

I am a Nigerian skeleton athlete and construction engineer. Skeleton asks for precision, patience and complete commitment. My route into the sport is part of a story I am still building.

Faith, Nigerian representation and disciplined preparation shape the journey. I want the next athlete to see a route where there once seemed to be none.
